Do you know you are differentiating between those that normally charge to Trust Fund Accounts as their fixed account vs those charging to other accounts. Those charging to Trust Fund accounts are charged with straight time/overtime/travel while the others are just overtime/travel. If this is not being done, we may have more money than we think.

Thanks  
Gary Moore

See attached. For the branches, I have not broken contracts down by each, still waiting on a little bit more info from ERRS, but I've created daily burns for travel and payroll.
